A ROCKWELL CAN'T BE A HITLER IN TODAY'S WORLD

No Success Is Seen for Fascist Revival Led by Likes of U.S. Nazi

By H. R. TREVOR-ROPER
Special to The New York Times.

LONDON.

In 1945 Fascism was defeated. Its defeat was overwhelming. By its own standards it had proved wanting, for it had been a gospel of war and yet its advocates had failed to win the war they had made.

The democracy which they despised and the Communism which they hated had shown greater reserves of strength, and in the hour of defeat it was difficult to find anyone who admitted that he had ever believed such discredited doctrines.

Everyone protested that he had been seduced, deceived, coerced; "really," at heart, or in secret, he had belonged to "the Resistance."

Of course, it was too good to ast. No one could really believe b[illegible]ascism was [illegible]mpletelv with the rash statement tha[illegible] and conspi[illegible]n a society [illegible]eafter [illegible]ad i[illegible] [illegible]ter[illegible] the leader of the British Black[illegible]

cur together and are inflamed by economic depression it is unlikely that the Fascist parties will become a serious threat.

Prosperity and Defeat

Germany and Italy were defeated in the last war and Germany suffered serious amputation; but both are now prosperous countries; the very fact that their defeat was caused by Fascism had discredited nationalism there; and anti-Semitism is difficult to preach in a country that has liquidated nearly all its Jews.

France has suffered national humiliation in Indochina and Algeria and it is significant that the "Fascist" movements there are led by soldiers who have fought in Indochina and Algeria just as General Franco's "nationalist" party was nurtured i the Spanish defeat in [illegible]orocc but Fra[illegible]oo is [illegible]ero and [illegible]hv

The British writer, Mr. H.R. Trevor-Roper, has written, in a special article for The New York Times, headlined "A ROCKWELL CAN'T BE A HITLER IN TODAY'S WORLD", that the circumstances needed for a Nazi "revival" are not and will not be present in the foreseeable future--and that, even if such circumstances were present, men like Colin Jordan and myself are such empty-headed, childish and slavish imitations of Hitler that we have no chance of success with our movement.

There is a bare possibility that Mr. Trevor-Roper, in spite of his numerous degrees and presumed study of available facts on which to base his article, is simply ignorant of the actual ideological and sociological situation which has led Colin Jordan and me to stake our lives and our careers on the belief that the circumstances ARE ripe for the continuation (not the "revival") of the "fascist" doctrine, and that our movement, far from being out-dated and dead, is so keenly tuned to the temper of the times that it cannot help but succeed, in spite of the campaign of intellectual and physical terrorism applied against it all over the earth.

In fact, it is our contention that the very ferocity of the campaign of lies, suppression, illegal jailings and violence employed against us is clear proof that our opponents do not dare permit the doctrines of National Socialism to be placed fairly in the market-place of ideas, because they, too, are certain that these doctrines will prevail in fair competition with both Communism, and its pimping little sister, Liberal Democracy. We are ALWAYS presented in every medium of public information as "hoodlums" and bullies without an idea in our heads.

A perfect example of this campaign of suppression and violence against the doctrines of National Socialism to prevent their fair evaluation is provided by the current instance. Mr. Trevor-Roper's article is given considerable space in the influential New York Times to belittle and even laugh at the two of us, but past experience indicates I will be given no space at all to reply to these unfair attacks, and the Times, published by the Jewish Sulzburgers, will continue to foist the impression on the public that we are "hate-mongers", "lunatics" and political "gangsters". When we protest this unfairness, the inevitable answer of the suppressors and misrepresenters is that we are too illiterate and crude to be heard by cultured, decent people.

For this reason, I have written this

piece at a more sophisticated level of rhetoric and logic than I can employ in the dramatic propaganda which I produce for mass consumption. Let the discerning reader judge for himself whether this piece is a poisonous outpouring of crude "hate"--or whether it is rather a thoroughly legitimate and utterly sincere political PHILOSOPHY deserving of at least the same kind of hearing which is always accorded Marxism in intellectual circles. And then let him consider why this studious and dignified reply to Mr. Trevor-Roper's puerile attack will NOT be printed by The New York Times--or any other major medium of mass information in our liberal Judeo-democratic world.

And there the reader will have the REAL answer to the APPARENT "defeat" of National Socialism, gloatingly reported by Mr. Trevor-Roper. The latter savant reports with a straight face that "it was difficult after World War II to find anyone who admitted that he had ever believed such discredited doctrines"!

And who can doubt that in Rome, in 50 AD, it was ALSO difficult to find anyone who would admit believing in the "discredited" doctrine of Christianity--or that people in the middle ages could easily be found admitting a belief in the "discredited" doctrine of a round world, right after they burned Galileo?

When terror is abroad in the world, only heroes dare stand for their beliefs, true or false. And he who doubts that very genuine terror is STILL abroad in the world for ideas not favored by Jews--let him stand with me anywhere in New York City and attempt to preach the doctrines of National Socialism.

Colin Jordan and I, and our leaders in other countries freely admit that our movements are small and "discredited", if one reads only the pro-Jewish press, which includes both the democratic and the communist. But then the Christian movement was "small" and "discredited" in early Rome, too. So was the Communist movement, not so long ago, before its agents infiltrated enough of our civilization to FORCE the impression that most people are pinkoes, and Communism is a "good and noble idea".

But we KNOW for a fact that MILLIONS of human beings on this earth right now are either conscious National Socialists or are only a synapse away from discovering that they have been National Socialists for years and never knew it--BECAUSE THEY HAVE NEVER BEEN ALLOWED TO KNOW WHAT NATIONAL SOCIALISM IS!

I myself was one of the latter unfortunates, considering myself a "conservative" for years, until I learned that National Socialism is the very essence of what conservatives vaguely want but never understand because the campaign of terror connected with National Socialism makes them AFRAID of the words "socialism", "Hitler", "Nazis", etc. Instead of examining the IDEAS of National Socialism, as propounded by Hitler in Mein Kampf, they read bitterly hostile excerpts and commentaries, like the Jew, Shirer's book, (if anything), plunge their minds into the putrid emotional atmosphere fostered as the essence of "Nazism", by TV, movies and lurid magazines of gas-chambers, ovens, piles of dead Jews, etc., --and then conclude that such "monstrous criminals" could not possibly have had any ideas worth considering.

And finally, if they still feel a twinge of conscience at not examining the ideas of National Socialism in the SOURCE, their unconscious reminds them that it would be PAINFUL to discover any merit in Nazi ideas. Why become convinced of Christianity if one is a citizen of Nero's Rome?

Should this seem like an exaggerated picture, let the reader imagine what would happen to HIM, were he to become deeply convinced of the doctrines of Nazism TODAY. He would then have his choice between the most bitter life of frustrating hypocrisy--or even bitterer persecution.

Is that not true?

And, under those circumstances, what happens to Mr. Trevor-Roper's self-serving assertion that nobody can be found admitting he believes in National Socialism?

On the day that National Socialist ideas may be as freely expressed in Germany as, say Judaism, I will lead Mr. Trevor-Roper by the hand down any German street, and guarantee that he will not have to walk ten steps without meeting exuberant National Socialists. And in countries like the USA, where the people have never even HEARD the ideas of National Socialism expressed (I get almost murdered

by preachers of "free speech" for even TRYING to express them) after one year during which the people are allowed to hear the "discredited" doctrines of National Socialism, poor Mr. Trevor-Roper will have to write a new article for the Times, explaining how the demagogue Rockwell is intellectually swindling the growing millions of National Socialists, because, of course, the ideas Rockwell is preaching are so repulsive that nobody would listen "were it not for the cynical, carrot-on-a-stick demagoguery with which they are presented".

Mr. Trevor-Roper's unsupported assertion that the brand of National Socialism propagated by Mr. Jordan and myself is the "same old, dead stuff" as has been "defeated", and that our sterile little minds are incapable of developing a cogent and vital movement in tune with our times is convincing only to those who, apparently like Mr. Trover-Roper, don't bother to examine what it is Jordan and I are preaching, or, as I think more likely in this case, studiously ignore what we are preaching.

Aside from such obvious and petty things as that I do not permit any jack-boots, German uniforms, German titles, etc., in the American Nazi Party, and that I do not wear a toothbrush moustache nor comb my hair over my eye--the doctrines of the American Nazi Party are fundamentally different from those of Adolf Hitler in two utterly basic ways: (1) we do not believe in or preach dictatorship, and (2) we are not narrow nationalists or chauvinists--but RACIAL INTERNATIONALISTS.

I am an American who served many years as a Naval Officer, and I have not slavishly copied Adolf Hitler, but have modified his pioneering experiment to accord with what I believe is the greatest form of government ever developed for free white men, the American Constitutional Republic, as set forth in our printed program, for more than five years.

We believe and preach that that Republic was meant to be and was AUTHORITARIAN, not equalitarian. The great men who founded it were autocratic masters of their homes--not simpering cowards who spread the responsibility of their decisions on their wives and kids by the pretense and fraud of "democracy", or who hid from decisions by abdicating altogether to their wives like too many of today's fathers and husbands. The Founding Fathers of the American Republic kept slaves chained up in bondage. If they considered such black slaves "men", when they wrote the Declaration of Independence, then they must have been conscious criminals to keep these "free and equal" "men" chained up from the "pursuit of happiness" they said was the gift of the Creator. We do not believe Washington, Jefferson, Madison, etc., were such conscious, callous criminals. We believe they set up a government which was a perfect balance between the horror of TYRANNY and the even worse horror of anarchy.

They wanted Washington to be 'King". He refused, of course. But we can be sure he was no panderer to every whim of the people. He was a MASCULINE, firm governor of the people, not their helpless servant, as is puked at us by both liverals and conservatives today. We in the American Nazi Party believe that the American Constitution made it possible, for the first time in history, to have an AUTHORITARIAN government in which there is also strong leadership, without the horror of tyranny. We believe that that system of government has now been PERVERTED by the Judeo-liberal, Marxist social revolution, and that only a legal National Socialist COUNTER revolution can restore the golden mean of ORDERED FREEDOM established by our forefathers.

Colin Jordan, a patriotic Englishman--almost the picture of John Bull himself, has a similar program for National Socialism in Britain.

Do these ideas sound as though Mr. Jordan and myself have "slavishly" copied Hitler's dictatorship? Has anybody seen us strutting in jack-boots and moustaches or giving any other evidences that we are puerile imitators of Hitler?

No, of course not! We may possibly be mistaken, but we are no fools.

And on the point of narrow nationalism, Jordan and I are even further removed from our political and philosophical mentor, Adolf Hitler.

We have organized the World Union of National Socialists, and I will quote one of the basic principles we set down in the Cotswold Agreements. "To protect and promote the ARYAN RACE and its WESTERN CIVILIZA-

TION, wherever its members may be upon the globe, and whatever their nationality may be."

We both fought the Germans in World War II on behalf of international world-conquering bolshevism, and we are both determined to do all we can in our life time to see that White Men never again fight White Men just because they were born on different sides of an imaginary line on the ground, or because we are told by Jewish propaganda that the other guys are our "enemies".

Hitler said again and again that "National Socialism is not for export", and, in spite of the hysterical propaganda about his desire to "conquer the world"--he wouldn't even move in on the helpless British troops at Dunkirk. He refused to cross the tiny English channel, let alone the Atlantic Ocean! There never was a Nazi "Cuba", (and I wonder just how long The New York Times would recommend "peaceful coexistence" with a NAZI Cuba?)

In fact, if there is anything which can recall any ghost of the feelings of hate I once had for Adolf Hitler (when I believed the Jewish lies and before I read Main Kampf) it is when I consider how selfish he was with what I consider to be the greatest IDEA of our times! Hitler was the most chauvinist of Germans, probably because he never travelled. Can you imagine trying to be a world statesman if you were boss of a sovereign state no bigger than California, and you never went farther than to Arizona, as Hitler went only to Italy, once or twice?

Colin Jordan and I, on the other hand, DEPLORE narrow chauvinism and revanchism. We are INTERNATIONAL RACISTS, deeply desiring the same unity for OUR race as has been achieved by the Jews regardless of where they live. We realize that the world has become too complex and inter-connected for isolationism and hatred of other members of our race who happen to have been born in other areas.

Along with the great black leader, Elijah Muhammad, we believe in and preach a just division of the earth's bountiful surface between the various races--white, black, brown, red and yellow--with each race peacefully separated in its own area. This may be regarded as a "foolish" idea or even a crazy scheme--but at least it is not slavish imitation of the National Socialism of the twenties, which was, in my opinion, stupidly and wickedly isolationist, chauvinist and revanchist.

It remains to show the fair-minded reader that National Socialism is not merely a wild lust for blood and brutality, but a political and philosophical doctrine worthy of at least a hearing, which it is never allowed.

We do not espouse National Socialism because we can't wait to bite the head off a baby, because we are cowardly bullies, because we are secretly jealous of our fathers, because we once got trimmed in a business deal--or a fight--by a Jew, because we are psychotic killers, or because we are impotent.

No! We are National Socialists because we BELIEVE IN THE IDEAS SET FORTH BY ADOLF HITLER IN MEIN KAMPF!

Adolf Hitler's ideas for the attainment of social justice, for the preservation of ourselves and our people, for the preservation of Western, Christian civilization and for the advancement of human happiness, are, we believe, better than any others as practical ideas.

In short, we are FOR National Socialism because we are FOR humanity and human progress, and we believe that only the IDEAS and IDEALS of National Socialism can now help humanity.

Before we go briefly into those ideas, let's dispose of one very telling criticism always delivered at all right-wingers, including National Socialists.

"You people are always 'AGAINST' things", goes the cannard, "you have no POSITIVE ideas. You are not FOR anything."

Well we will shortly present our positive ideas, the things we are FOR, in addition to those already set forth above.

But first we must point out the madness of this "you're-always-against-everything" bit so dear to the heart of our opponents.

A man who comes home to find his wife being raped, his children being beaten and his house being robbed may have the most wonderful plans to improve the property, repair the front porch, add a patio and paint the house. But only an idiot would get out his paint bucket or plans for building improvement while the

whole place was coming down about his ears and his dear ones being violated. The FIRST thing in such a situation is to be "against" the ravishment until at least further ravishment is corrected. Then, and only then, can a sane man go on to the improvement stage.

It is just so today with the civilization in which we find ourselves.

Colin Jordan and I have both been called upon to shoot at other human beings in two "WORLD WARS" within our lifetimes, and it appears another is in the making. We see the White Race being rapidly (in terms of history) being conquered by dark savages, mongrelized and taught to be ashamed of itself. We see our Western Christian culture reduced almost to the point of utter idiocy, as paintings made by the tails of donkeys, or by gorrillas or by naked women crawling over canvases coated with warm chocolate win art prizes, as pornography and unspeakable language win literary prizes, as homosexuality becomes so "normal" the queers now have a regular lobby, "The Matachine" society in Washington pushing to popularize sodomy, music has become the orgiastic thumping of jungle cannibals, our youth becomes so utterly disgusted with hypocrisy and lack of leadership of the Judeo-democratic Marxist world that they go about with knives and clubs physically and senselessly attacking people for "kicks"--and all the rest of the nightmarish picture of what has happened to the world which once boasted the Pax Britannica, Shakespere, Bach, Benjamin Franklin, Washington and a very real CULTURE.

Under these catastrophic circumstances, to talk of "improvement" before we have stopped the final and ultimate holocaust of civilization and culture is either to cavil or to resort to an intellectual smoke screen. We must be AGAINST the destruction of our civilization and race which is NOW GOING ON, BEFORE we can be for improvements.

With that silly "objection" out of the way, we can proceed with what it is we are FOR.

We must preface the outline of our positive National Socialist Philosophy, however, with the clear statement that there is no room here for more than the BAREST presentation of beliefs, without rationale. The following statements are included not with the idea that they will convert anybody to National Socialism, but merely to demonstrate that "Nazis" are not brutal cretins, as depicted in Jewish propaganda, but men with very distinct philosophical ideas which are none the less deserving of evaluation AS IDEAS because these ideas have been systematically equated with "hate", "bigotry" and "gangsterism" by almost universally dishonest media of public information and public entertainment.

National Socialism is, above all, the doctrine that there is no artificial line between the rest of the universe, both animate and inanimate, -and man. We do not believe there are any special, mystic laws for homo sapiens, any more than there are special laws of Nature for any special variety of ape.

National Socialism contends that man must stop his ego-centric thinking in relation to his own body and BREED, just as he had to stop ego-centric thinking in regard to his position as the "center of the Universe" back in the middle ages, before there could be any scientific progress.

Nazis believe that men vary in QUALITY -not only as individuals, -but also by BREED, just as do all the rest of living things. We believe that until 1900, the rigors of Nature insured upward evolution by natural selection of the strongest and most fit individuals and breeds of men, but that modern science, and particularly modern and mistaken "humanitarianism" has now started a REVERSE selection of the weakest and LEAST fit human beings, so that we have actually reversed human evolution!

In short, we are scientific RACISTS.

We believe that man cannot stand still biologically. For tens of thousands of years, man bred upward from the amoeba and the ape until his brain was capable of producing the symphonies of Beethovan and the political ideas of a Madison. If he now falls victim of the unnatural and Jewish ideas of human "equality" and racial "integration", he will breed himself back DOWN to the cannibal and finally the ape squatting in his own filth.

We are also "TRIBALISTS": we believe that society functions best only when it maintains the basic functions of all ORGANISMS, when it maintains the same ORDER as is necessary for every living thing with differentiated cell functions.

Society, thus, must have intelligent division of labor based realisticly on actual abilities, rather than wishes and dreams. The cells in the feet might resent their lowly function and wish to participate in the more lofty and exciting function of brain-cells, but they MUST perform their own function, and accept direction of the brain cells, or both brain and feet cells will PERISH. The measure of the excellence of a cell, thus, is not its function, but rather the degree to which it PERFORMS its function.

National Socialists thus accord equal "honor" to the head of state and to the digger of ditches, providing each exerts himself to the limits of his own capabilities, and, for this reason, National Socialists insist on SOCIAL JUSTICE for all "classes", rather than utterly ruthless "laissez-faire" which permits unrestricted exploitation of manual labor by sharp practicers.

At the same time, National Socialism recognizes that the ONLY motivation for productive activity in all of Nature is private gain and private property, so that we believe in FREE ENTERPRISE, so long as the enterprisers do not promote the destruction of order and culture, as do pornographers, dope-peddlers, etc.

National Socialism recognizes Communism as exactly the same disease as CANCER in a living organism; it is a MUTINY of undisciplined and non-productive cells who smother and kill the productive and organized cells by their selfish, wild growth, just as the inferiors of the earth, led by the Jews, now threaten to overwhelm and destroy the superior race and culture of the Whites who built Western Civilization.

National Socialism does NOT teach that the "State is everything", as our opponents keep howling, along with the ignorant.

In Mein Kampf, (Stackpole), Pages 101, 102, 370, 379, 275, 276, 375, 381, 382 and 383, Adolf Hitler repeats again and again that the State is only a "means to an end", NOT an end in itself. He drives home the National Socialist doctrine that the State is ONLY a tool for the advancement of the RACE, -the people. Hitler emphasizes that when any state stops serving the cause of the race of people, it is not only the right, but the duty of the people to put an END to such a criminal state, as Hitler did to the Weimar Republic.

National Socialism believes that the individual should have as much liberty as possible without destroying the organic unity of the society. This is not only an empty ideal of our doctrine, Hitler almost literally raves about the need for MORE respect for individuals and individual genius as the very well-spring of all culture and advancement of human society. That is the TRUTH, as you will find if you read Mein Kampf, instead of such misrepresenters as Mr. Trevor-Roper.

The reason Hitler is always represented as against individualism is that he advocates, as do we, summary disposal of the kind of "individualists" who advance their "private enterprise" by selling dope and filthy literature to kids, working women and children to death in sweat-shops and criminally conspiring to overthrow the social order by LIES, HATE and finally violence.

A crowning example of the utter viciousness of the lies about Adolf Hitler and National Socialism is provided by the usual groaning of the WORST lie of ALL, that Hitler invented the "big lie"!

If the sincere and honest reader will take the trouble to READ Mein Kampf, as it must be presumed Mr. Trevor-Roper has done, he will find, on page 228 (Stackpole), that Adolf Hitler DEPLORES this vicious technique of the JEWS, and explains how the Jews of Germany and Vienna had captured the national Press, as they have largely done in the USA, and how these JEWS used gigantic, insolent lies on the helpless little people who simply couldn't conceive of anybody daring to tell such staggering lies. Hitler goes on to quote Jesus Christ, reverently, showing that He called the Jews "liars", and Schopenhauer, who called the whole race "the great masters of the lie". In spite of this clear proof that, far from inventing the "big lie", Hitler pointed out the Jewish use of this rotten device, and soundly DENOUNCED IT, --the Jews go on spreading the filthy lie, year after year, that Hitler invented "the Big Lie"!!

I could, of course, go on for many, many pages, --but there is neither need nor space in a piece such as this.

There is enough here so that any

honest reader can decide for himself if Mr. Trevor-Roper, The New York Times, and the rest of the misrepresenters and suppressors are either correct or fair in their presentation of Mr. Jordan and me as puerile and slavish apers of a dead era.

They have never yet published any intelligent piece we have produced, and that they would print this one is a most unlikely possibility.

Nevertheless, I shall get it out to as many quarters as possible, and the fact that it is NOT permitted to be heard or published to students and those who would like to hear the OTHER side will only serve our cause.

The more I am depicted to the public as a horned and raving monster, slobbering hate and venom in idiotic hopes of murdering everybody except Mr. Jordan and myself, the more devastating is the effect when I manage, in spite of their unfair blackout of our ideas and their terrorism, to present OUR side of National Socialism to honest men.

They can not much longer hide our ideas, as our dramatic tactics succeed more and more in arousing the curiosity of millions who wonder why we keep risking our lives for such "foolishness".

Hundreds of YOUNG, IDEALISTIC and DEDICATED MEN are flocking to us, ready to back up our ideas with their fists and their lives when the Jewish War Veterans and other such groups turn out to stop our speeches by screaming, violence, or getting us arrested for "rioting", as they just did when we tried to picket the Communist, Gus Hall, in Philadelphia.

Nothing was ever more true than that "greater than the tread of marching armies is the power of an idea whose time has come."

The marching Legions of Rome, the lions and the flames were not enough to stop the power of a few "defeated" Christians in the catacombs, when their time had come.

Today, the legions of Marxism march and destroy everything in their path. I was long a part of these Judeo-democratic legions.

But their mighty, equalitarian empire is everywhere trembling under the impact of the smashing ideas of NATIONAL SOCIALISM, --and the weakness and effeminacy of their own pitiful, Jewish ideas of universal "peace" and "equality" --the ideas poltroons and defeatists.

We are the new BARBARIANS of our times. They are degenerate and effete; we are vigorous and masculine. They are passive and cringing. We are dynamic and aggressive, the way Nature intends all living creatures to be. They moan for "security" and "peace". We eagerly seek out combat and danger as the natural means of testing and improving us.

And there is the key to our coming victory over these dark mutineers!

The more they persecute and try to terrorize us, the HARDER and STRONGER we become!

Before Christianity could really triumph, it had to be crucified and "destroyed" as no doctrine before it was ever "destroyed".

It is not without significance that there were eleven "disciples" of Adolf Hitler crucified in Nurnberg, nor that his apostles today are stoned in the public market-places and hated above all men. It is especially significant that it is the same Jewish race which had Christ killed which now howls to heaven that Nazis must be hunted down and exterminated, --even while they are preaching "brotherhood" with cannibals, and "civil-liberties" and "tolerance" for Communist criminals!

Now let's see what they will do with this message from the "catacombs"!

American NAZI Party
